

We Agree: Creating a Parenting Plan

**A workshop for parents who care for their children in separate homes
Offered by Webinar through the Working Family Resource Center**

When families change – through separation, divorce, re-marriage or a paternity action, a whole new set of challenges arises for parents and their children. Decisions need to be made about where children will live, how parents will share parenting time, rules, activities, education and many other elements of daily care.

We Agree: Creating a Parenting Plan is a 90 minute workshop developed by the University of Minnesota Extension – Parents Forever program. It gives parents a roadmap to help them develop a parenting plan that meets the needs of their children. Participants who attend the webinar will receive a copy of the 52 page booklet *We Agree: Creating a Parenting Plan* at no charge.

Instructors:

*Rose Allen, Extension Educator- Family Relations, University of Minnesota Extension
Colleen Gengler, Extension Educator-Family Relations, University of Minnesota Extension*

This class is being offered over the Internet – you can participate from your computer.
Please register by June 3 so we can send you class materials by e-mail.
